

PRODUCT DISPLAY INSTRUCTIONS

For the best presentation, we recommend framing the posters and displaying them on your wall.

1. You have the option to purchase a pre-framed version or select an unframed one and acquire a suitable frame from popular retailers like Amazon, Walmart or craft stores such as Michaels. When buying your frame, ensure to choose one that matches the dimensions of your poster.
2. If you prefer a wall display without a frame, consider obtaining poster hangers online.
3. You may choose to keep the poster (or posters) easily accessible for demonstration purposes. In such cases, to ensure enduring quality, we advise storing the posters in the Art Portfolio folder, available for purchase online.

PRODUCT HANDLING INSTRUCTIONS*

UNFRAMED POSTERS

Unframed posters are carefully shipped and rolled in a tube for optimum protection.

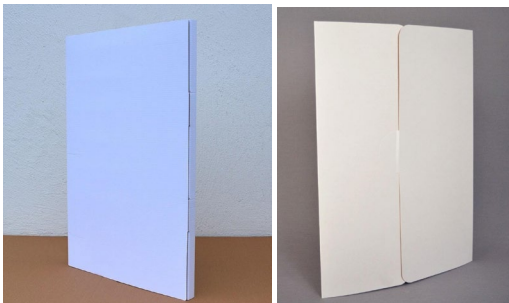

To properly unroll your poster, follow the steps below:

1. Begin by removing the poster from the tube.
2. Lay the poster flat with the image side facing down on a clean surface.
3. For additional protection, cover it with a matboard or paper.
4. Place heavy objects, such as books, on each corner of the poster to facilitate unrolling, allowing several hours to a full day as needed.
5. Once you unrolled your poster, display it using your chosen method.

FRAMED POSTERS

Frames and posters are packed separately in the same order.

- Frames come pre-packed with corners and film and then packed in a box with firm edges to protect them. I-beams are also used to give the package additional sturdiness and for multi-item orders (maximum three frames in one package).

- The posters are packaged separately in an inner paperboard folder (maximum of ten posters in one inner folder).

- While the poster and frame are packed separately in one box, final assembly is required by the end recipient. No expertise is required, and the hanging hardware is included.

* Please note that pictures used in these instructions are only examples, as packaging may vary between countries.
